Olivia McMahon and Shannon Taylor.

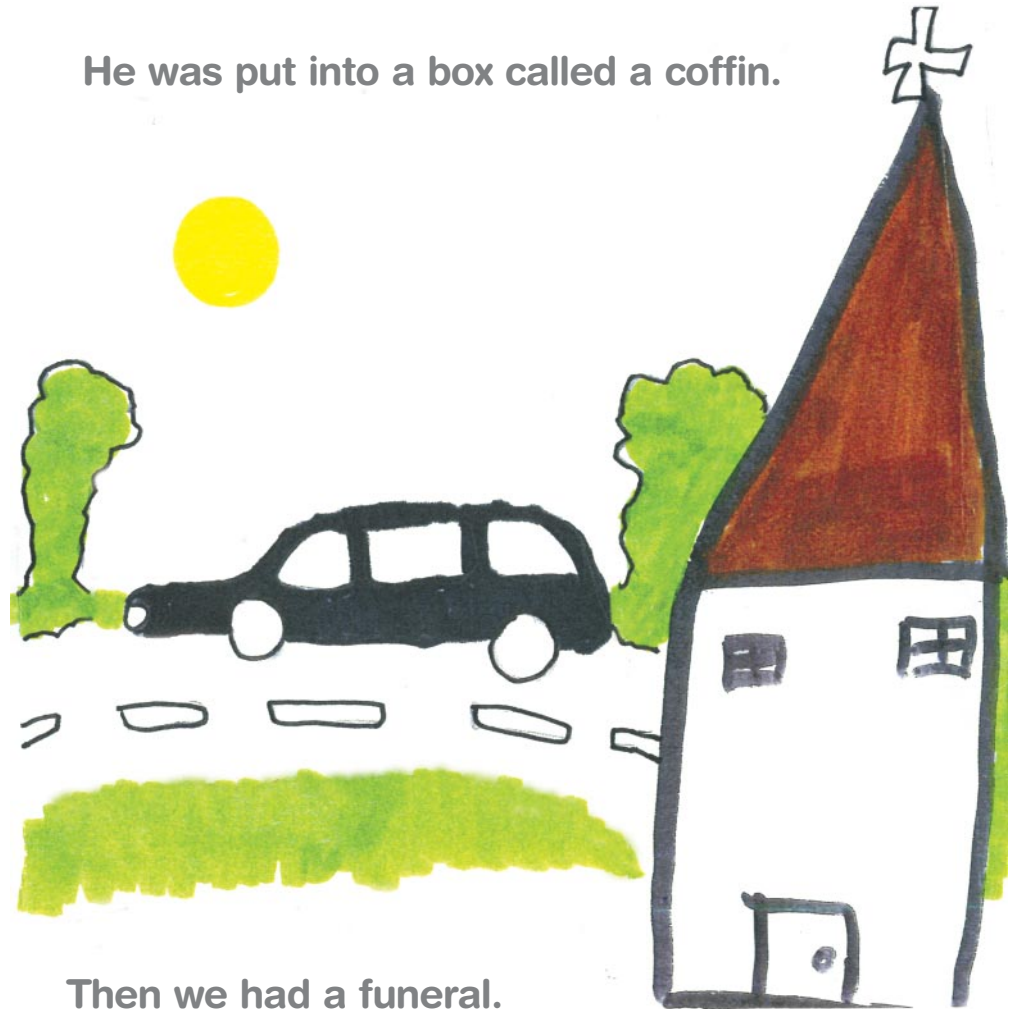

**When my
brother died...**

Everyone was crying.

I felt so sad.

He was put into a box called a coffin.

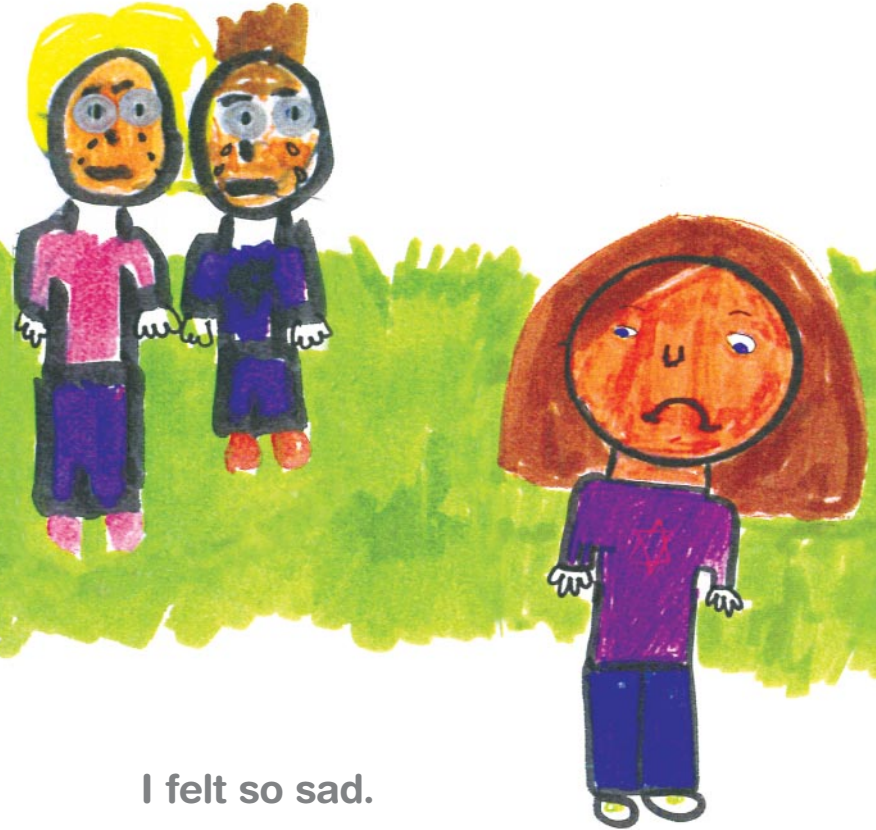

Then we had a funeral.

The coffin was put into the ground.
Sometimes the coffin is burned.

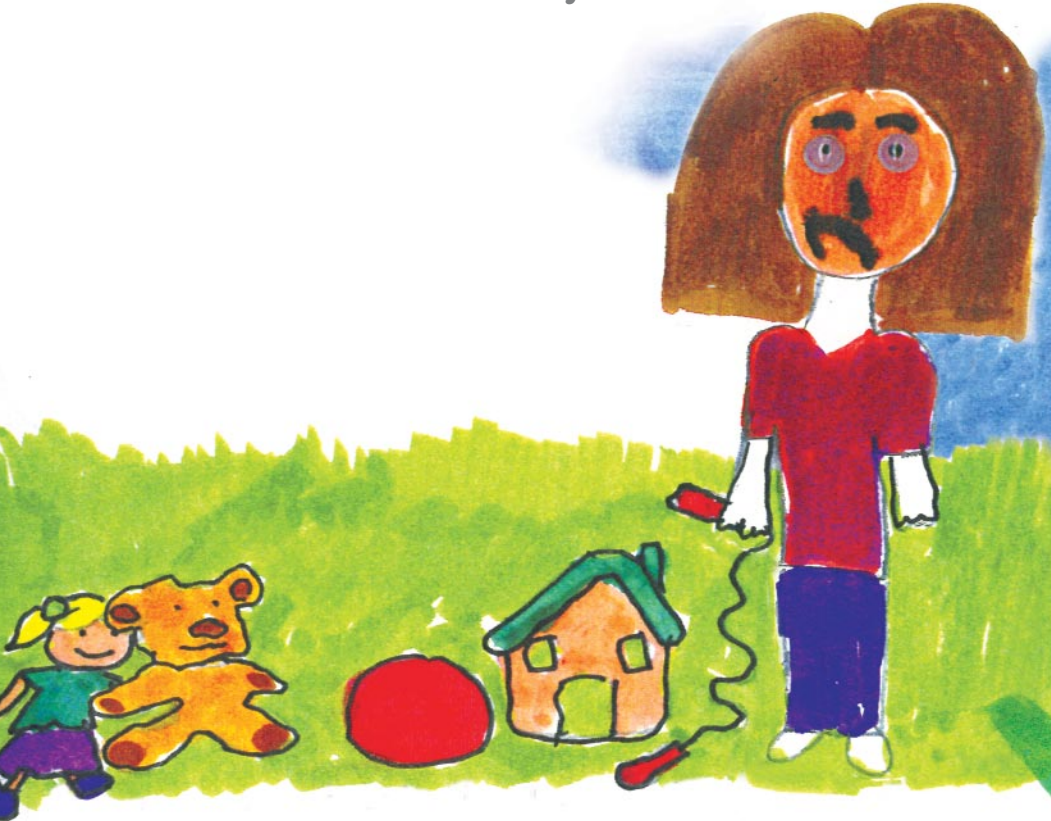

This doesn't hurt because when you are dead you don't feel, hear, see, move or do anything anymore.

Everyone at the funeral was crying.
Mum and dad were crying too.

I felt so sad.

I was sad that I couldn't play with my brother anymore.

But I was glad that my brother wasn't in pain anymore.

I was sad that I would never see him again.

And my brother doesn't need to go to hospital anymore.

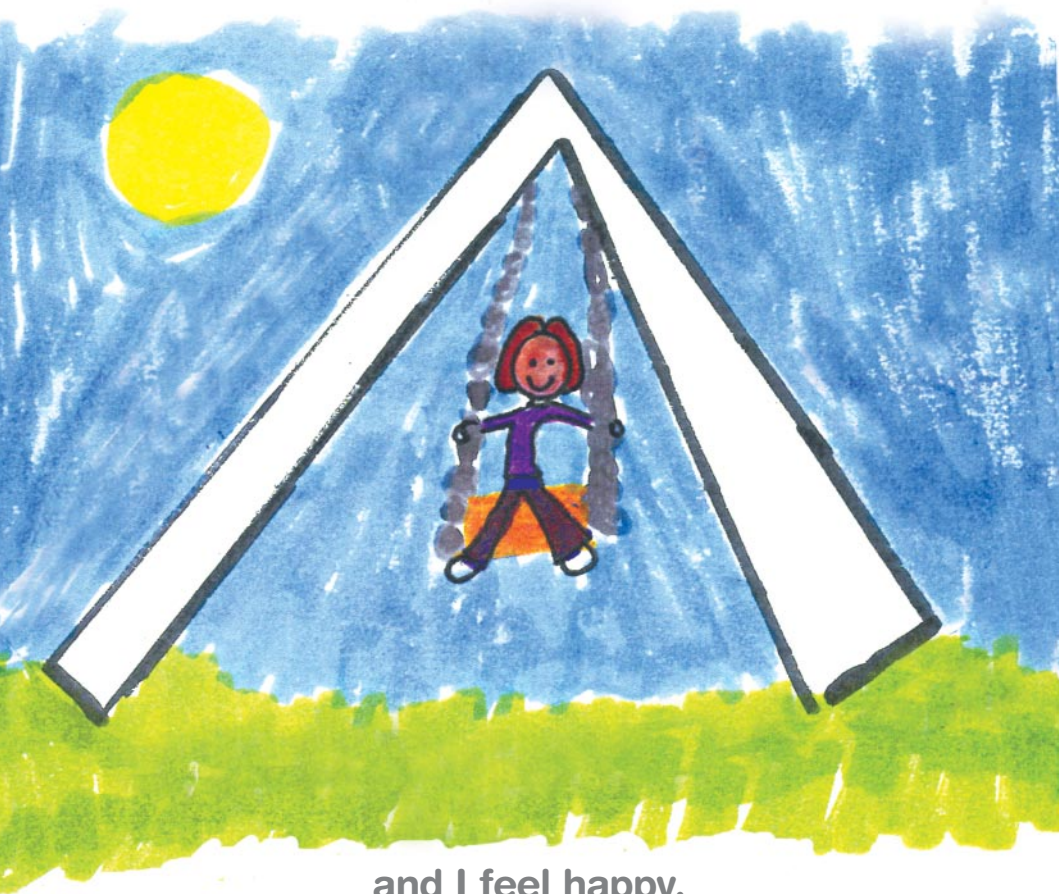

Sometimes I like to talk about him.

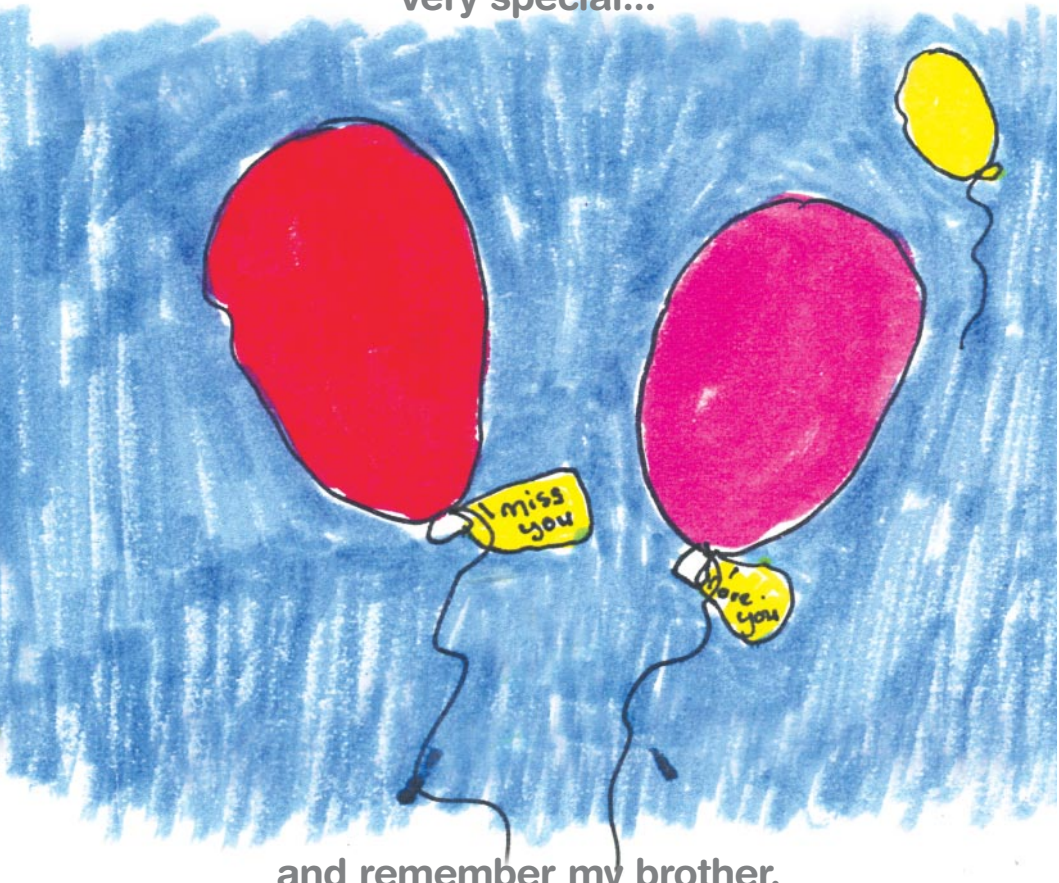

It makes me think of all the happy times.

Sometimes I just like to play...

and I feel happy.

When it's his birthday I am going to make the day very special...

and remember my brother.
